

# HEALTH & SAFETY/FOOD SAFETY CONSULTANT

Southalls are part of the Citation Group, enabling us to offer our clients a broad set of excellent services. We offer market-leading safety management software, exceptional client retention and game-changing career opportunities. We, therefore, strive to offer colleagues and clients an opportunity they will not gain at many other businesses, where we are interested in growth and service excellence.

## THE ROLE

In line with our ambitions to develop the business, we need passionate, enthusiastic health and safety and food safety professionals to join our team. With an impressive portfolio of clients - from low to high risk and growing SMEs to thriving PLCs, a vital element of this role will be for you to work with them at their sites. Whilst it means this will be a remote role, we value teamwork and collaboration; therefore, you would have access to and be encouraged to spend some time at the offices you're located closest to.

You will be expected to maintain a portfolio of client accounts that will include auditing, production and review of risk assessments and policies (including Food Safety Management Systems for food safety clients), software rollout, accident investigation and offering advice. You'll need to put your outstanding communication skills to work to ensure you build effective and lasting working relationships with your clients.

## THE PERSON

We'd especially welcome hearing from individuals located in the North West, Yorkshire, Bedfordshire, Buckinghamshire, Essex, South / South East (M25 region). If you are located in one of the regions surrounding these areas, there may also be scope for an opportunity with us so please still get in touch.

- To help your work-life balance, you will have the autonomy to manage your workload and you will see projects through from start to finish, building up relationships with your clients.
- Technical expertise is crucial, as is the ability to offer client-focused, pragmatic advice. Therefore, we are looking for either:
  - An Environmental Health Practitioner with food and or health and safety experience or;
  - NEBOSH equivalent with Grad IOSH status. Candidates currently undertaking training will also be considered.
- We are looking for candidates with a true passion for their profession, who actively commit to personal development in their field of expertise
- Maintain an excellent working knowledge of Health and Safety and/or Food Safety law and practice appropriate to our clients and service.
- You should have excellent written and verbal communication skills and be familiar with IT systems to record and store H&S reports etc.

## WHAT YOU GET FROM US?

We have been named one of the UK's Times Top 100 Best Companies to work for - FOUR times! Working for the Group, you will receive a competitive salary and benefits package including car allowance, CPD / professional development opportunities, training, paid professional membership fees, team social events, 25 days holiday, corporate gym membership discounts, private healthcare, your birthday off work, the opportunity to purchase extra leave, pension contributions and more.

It's a great place to work because the people we employ are fun, professional and supportive. We want like-minded individuals who love to love their job. So, if our culture sounds like a good fit for you and you want to be part of our success story, send us your details.
